# Montréal Fashions on Ice 2000

It is my great pleasure to welcome you to Montréal Fashions on Ice - 2000, the fourth edition of this renowned fashion spectacular showcasing enchantingly beautiful creations from ten of Montreal's top designers.

At the crossroads of both European and American influences and trends, Montréal is home to a \$3 billion (U.S.) fashion industry and is well-known for the originality, imagination and style of its designers. What better way to enjoy the dazzling flair of Montréal haute couture than through the skating artistry of the Ice Theatre of New York, with choreography by ice dancing medalist Moira North!

In this millennial year, Quebec Government House in New York celebrates its sixtieth anniversary of fostering ties between Quebec and the American people. We are excited that New York will be the scene, in 2001, for the celebration of Quebec arts, culture, technology and style. In a months-long series of events, we intend to showcase the very best that contemporary Quebec has to offer—including fashion and design.

We would like to thank each of our participants and partners for helping to make tonight's event truly magical.

Enjoy the show! Bonne soirée!

## NATIONAL BANK OF CANADA

National Bank of Canada  
is proud to be associated with the  
Montreal Fashions on Ice Show - 2000.

By supporting this event,  
we maintain our commitment  
to assisting dynamic entrepreneurs  
and fashion designers from Quebec  
in bringing their exclusive creations  
to our American neighbors.

Enjoy the Show !

# Shopping à la Montréal

Seek and no doubt you shall find. Montréal is a shopper's paradise, particularly if you have an appetite for the **eclectic** or exceptional. Go where your tastes take you, be it for fashion, furnishings, antiques or artisanal wares... for one, in 18 miles of underground shopping promenades. Then satisfy your cravings with the spectacular diversity of Montréal's legendary cuisine, in more than 4,900 **tempting** restaurants, cafés and bistros. Dine, dally, do as you will. Here, the opportunity for pure indulgence is irresistible.

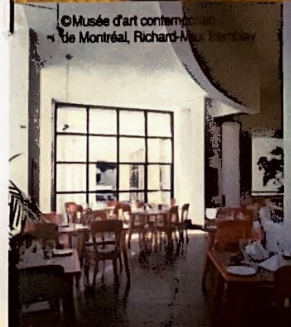

*The Montreal look? We know exactly what we want. And we're not shy to show who we are.*

Fashion reflects the human soul as well as society's know-how and creative drive.

Montréal fashion designers are superbly original, and we owe them masterpieces which highlight texture, movement and colour. Masters of their art, they achieve excellence through creativity and their quest for distinction.

The four seasons are no longer a mystery and we can only applaud the talent of those exceptional artists.

## Fruits & Passion

In recent years, the cosmetic industry has rediscovered the therapeutic value of plants, fruits and essential oils. The use of derivatives from vegetable oils dates to the dawn of history and, as for fruits, today's practices reconfirm that their unique composition blends perfectly in the making of cosmetic products.

The originality of Fruits & Passion rests on the creation of a complete line of personal care products for the bath and body, in fruit and flower fragrances that awaken a deep sense of well being. And, to prolong the sensual pleasure, Fruits & Passion also offers you Gourmet, Ambiance and Aromatherapy product lines.

Contents of the highest quality, original scents, and beautiful sophisticated bottles go hand in hand with constant research into properties and benefits of plants, flowers and fruit. We pride ourselves on innovative formulas, based on natural ingredients and vegetable extracts selected exclusively for you.

All Fruits & Passion products harmonise perfectly with the environment : they are completely biodegradable and, of course, not tested on animals. All products are non-allergenic and non-irritant.

Our products are sold in some of the most exclusive stores in the world as well as our own specialised Fruits & Passion boutiques. We invite you to visit us at one of our locations.
